

Creative Offices for Modern Organizations

Step inside. Take a look around.

You are invited on a tour of Bristol's latest edition, the **COMO** desking system.

The front is so simple and unpretentious, but as you step inside, it opens up and becomes more exciting.

COMO signifies **creative offices for modern organisations**.

As the design story unfolds, the creation of COMO stems from the symbolism and shape of a spider. The spider encouraged us to weave our dreams into reality. Her body is made up roughly of a figure of eight which, laid on its side, is the symbol of infinity. Infinity is like the wheel of life, and strongly connotes the infinite possibilities of creation.

Rigid structure

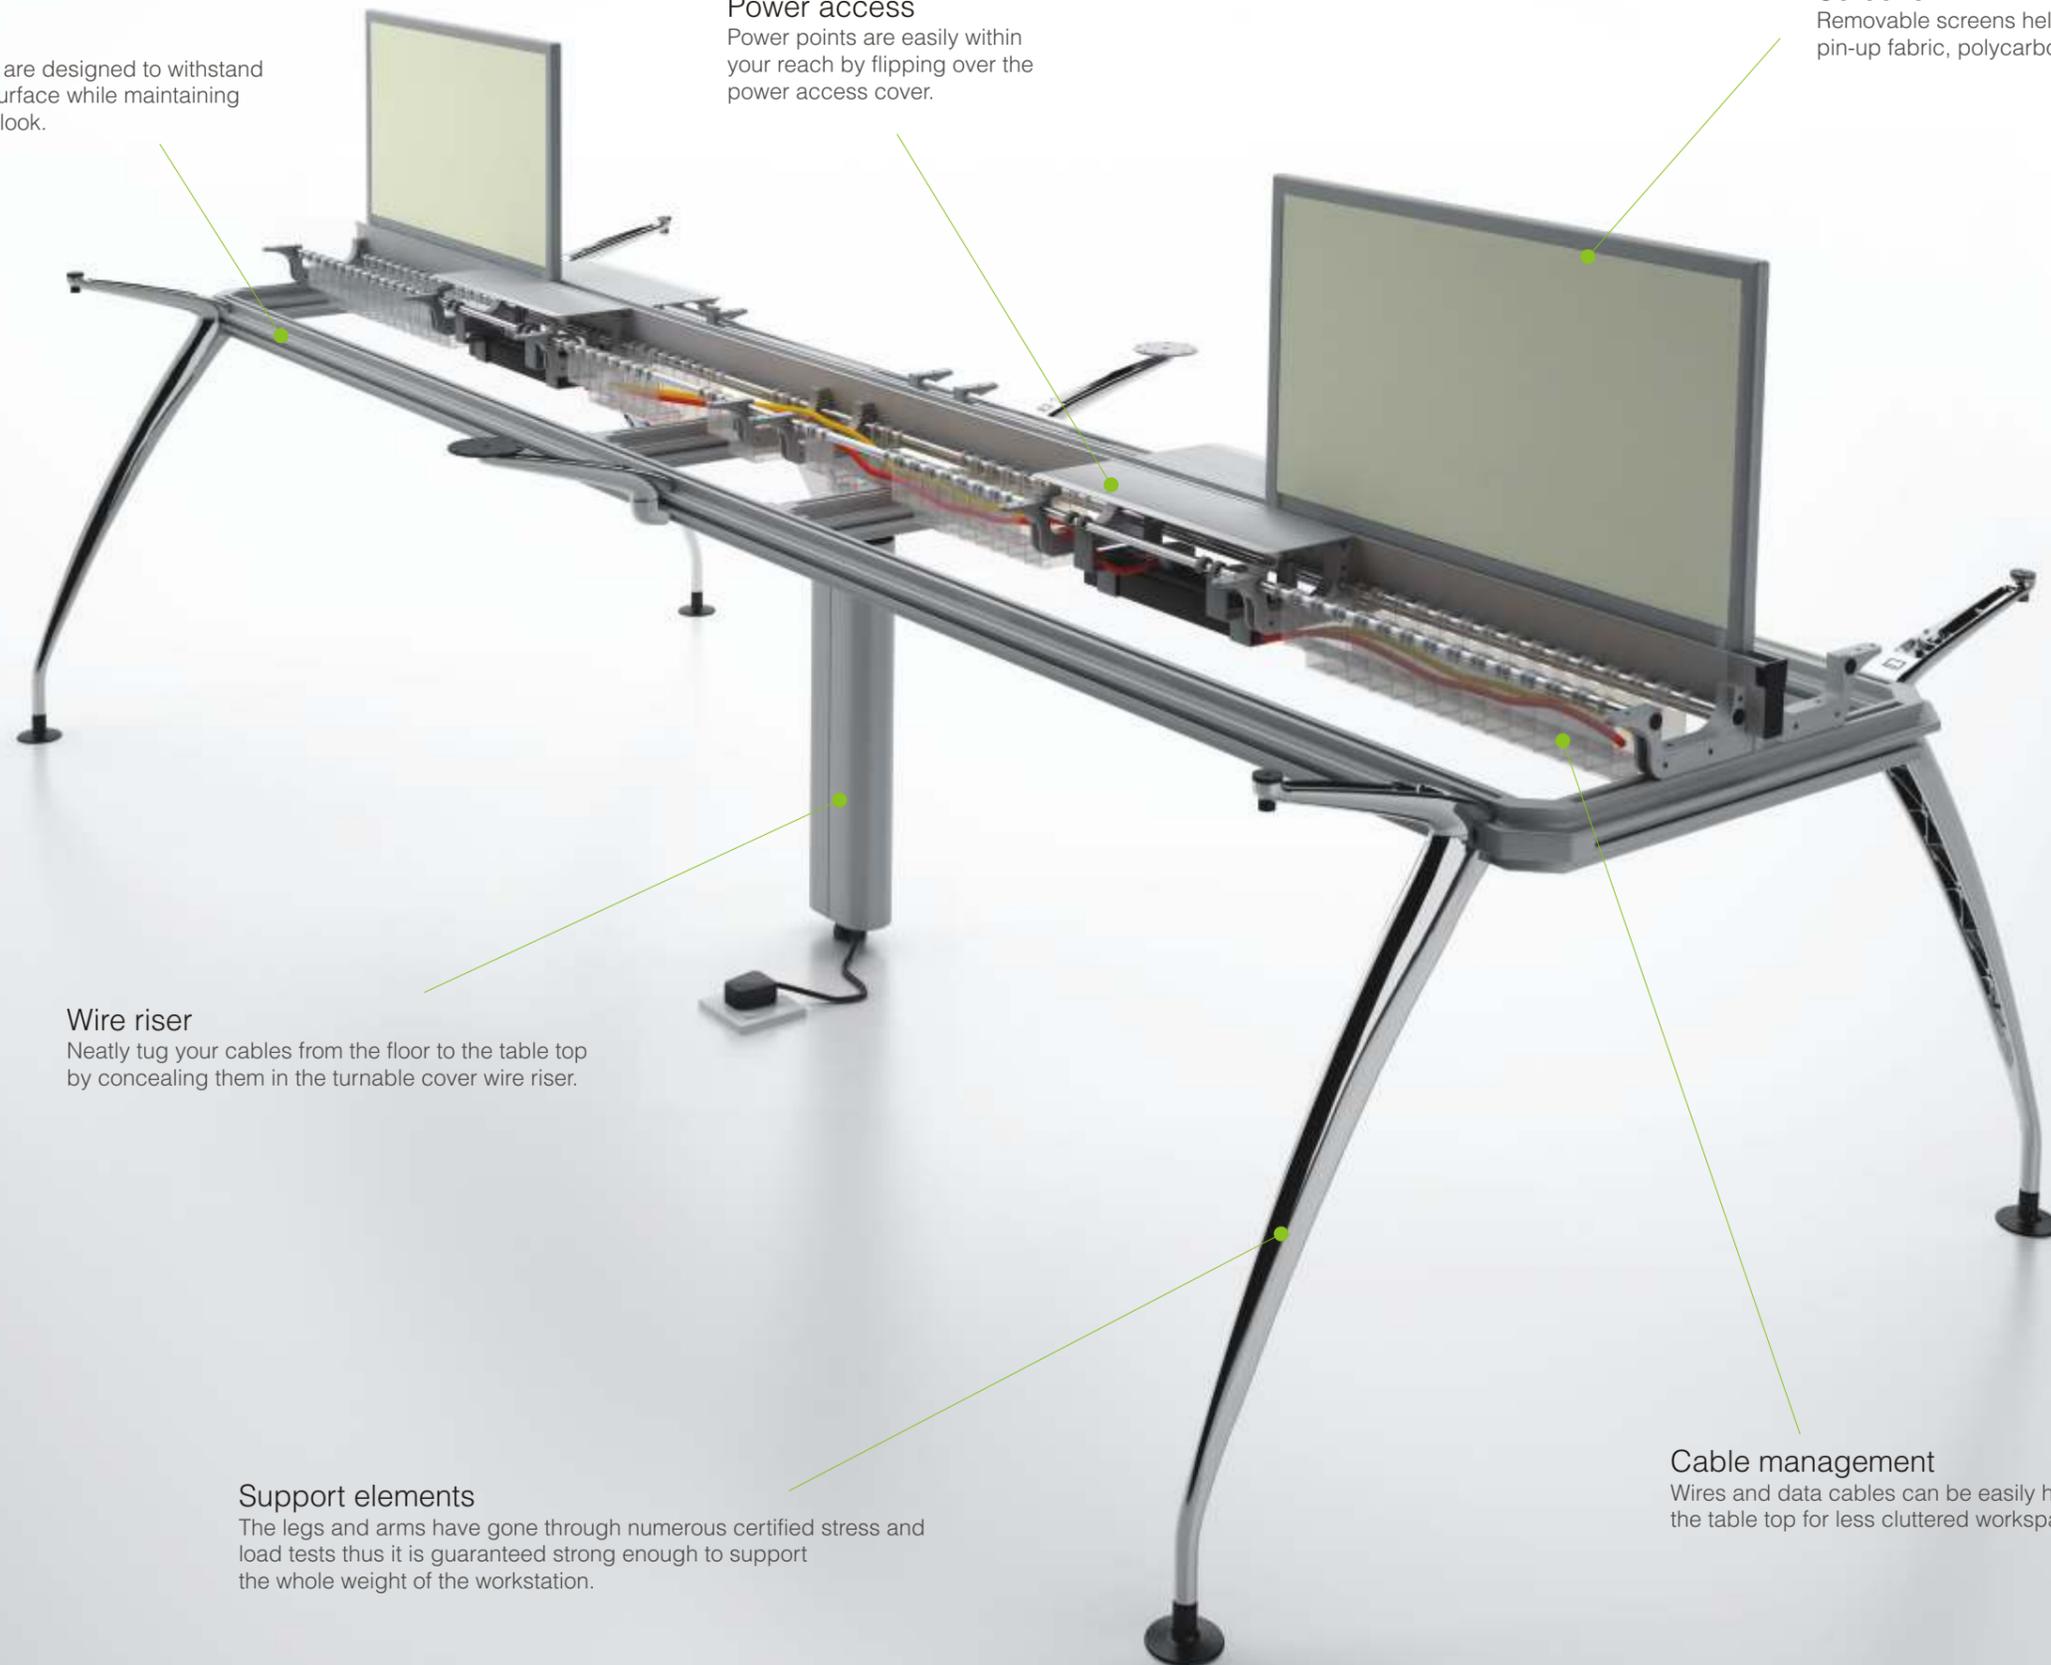

Interconnecting beams are designed to withstand the weight of the worksurface while maintaining a streamline minimalist look.

Power access

Power points are easily within your reach by flipping over the power access cover.

Screens

Removable screens helps to promote privacy and are available in pin-up fabric, polycarbonate and even laminated glass.

Wire riser

Neatly tug your cables from the floor to the table top by concealing them in the turnable cover wire riser.

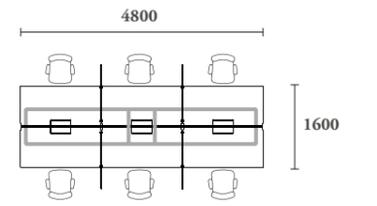

Support elements

The legs and arms have gone through numerous certified stress and load tests thus it is guaranteed strong enough to support the whole weight of the workstation.

Cable management

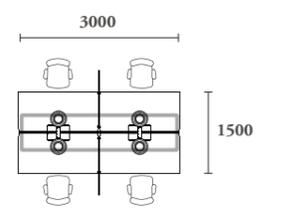

Wires and data cables can be easily hide beneath the table top for less cluttered workspace.

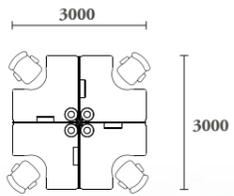

COMO desking system is a well-integrated product line that projects an image of quality and sustains a consistent aesthetic throughout the office.

meeting

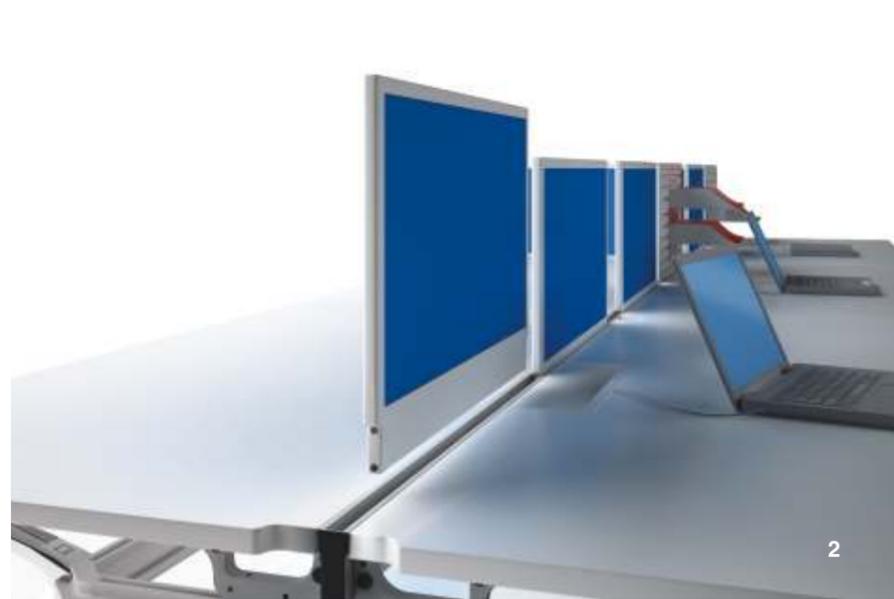

With COMO, great design and high performance can coexist. The clean-lined minimalism, and pleasing balance of form and function keeps COMO in demand for all places, from modern living to contemporary workspaces.

como features

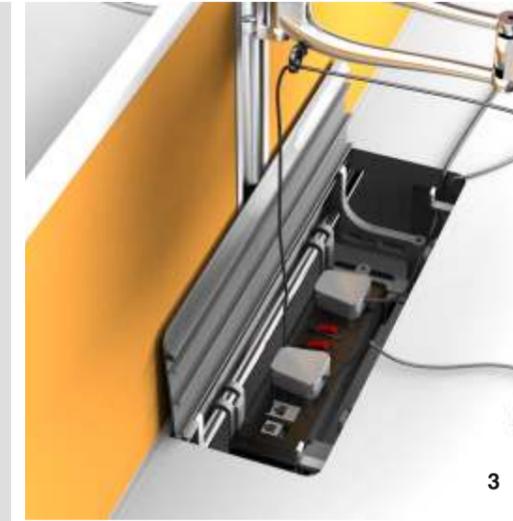

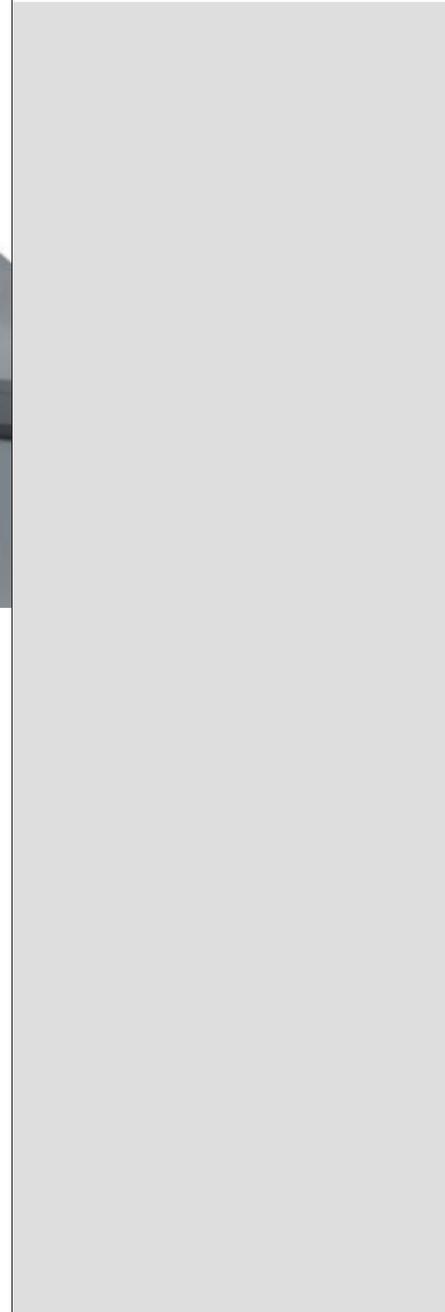

1

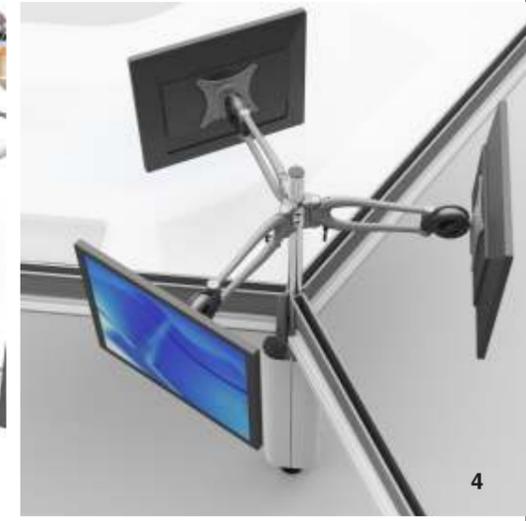

2

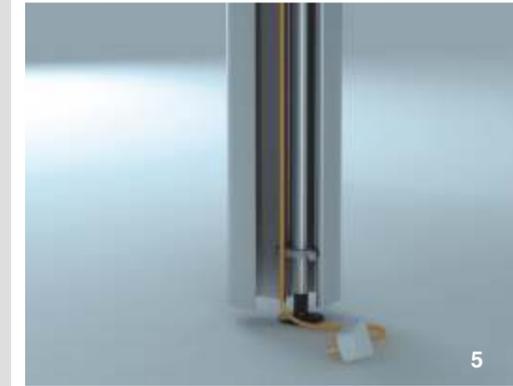

- 1 Double vertical pole allows running of wires and data cables from the floor to the table top beside providing a sturdy and stable working platform.
- 2 For seated privacy on demand, detachable panel screens define space and create boundaries for a person or team.
- 3 For less cluttered working area, COMO allows access to the power socket outlet from beneath the table top through a hatch cover.
- 4 Die cast aluminium LCD arm enables position of the monitor between two facing desks, making it easy for team work collaboration.
- 5 Turnable wire management tower cover enables easy installation of cables from ground to table top while keeping the wires hidden.
- 6 COMO combines simple forms and clear structure with design details that meet diverse user needs. The cable raceway, for example, is designed to route wires and cables to the lcd monitors without leaving them unmanaged.
- 7 The wire management box conceals the power points and allows high volume of wires to be routed from the floor to the table top.
